## PROCEEDINGS

OF THE

## BOARD OF EDUCATION

## STATE OF ILLINOIS.

Regular Meeting Held at Normal, Degember 14, 1887.

## STATE BOARD OF EDUCATION.

## STANDING COMMITTEES.

## ORDER OF BUSINESS.

1. Reading, amending and adopting minutes.
2. Election of officers.
3. Report of the President of the Normal University.
4. Treasurer's report.
5. Reports of special committees.
6. Reports of standing committees, in their order.
7. Communications.
8. Motions and resolutions.
9. Unfinished business.
10. General business.

Next meeting of the Board will be held June 27, 1888.

## PROCEEDINGS OF THE BOARD OF EDUCATION,

AT THE<br>REGULAR MEEIING, HELD DECEMBER 14, 1887.

Normal University, Normal, Ill., Dec. 14, 1887.
The Board of Education met in the reception room of the University, at 9 o'clock A. M.
The President, Mr. E. A. Gastman, in the chair.
The following members were found to be present: Meesrs. Roots, Raab, Walker, Gastman, Atwood, Saindham, Slade, Cope, Harrington, Benedict, Edwards. Absent: Messrs. Lesem, Dodge, Green and Knickerbocker.

The reading of the minutes of the regular meeting, held June 22, 1887, was by vote dispensed with.
A letter from Judge Knickerbocker was read, giving his reasons for absence. Also a telegram from Mr. Dodge, to the same effect.
The Secretary then read a letter from Judge Green, in which he resigned his membership on committees on Museum of Natural History and on Training School, to take effect Dec. 12, 1887.
Judge Green's resignation was accepted on motion of Mr. Roots.
Dr. Hewett, the President of the University, then read the following report, which was accepted on motion:

To the Honorable Board of Education of the State of Tlinois:
Gentlemen: The statistics for this term are here given.

## ATMUENDANCE.

GRAMMAR SChool.

## PRIMAATY SGHOOL.

In the Normal Department seventy-one counties of the State are represented by the following numbers:

## REMARKS.

It will be noticed that the enrollment, both in the Normal Department and in the aggregate, is almost the same as it was one year ago, the excess is very slight. Bnt the enrollment of one year ago, was the largest we had had up to that time. Seventy per cent. of the counties of the State are represented in the Nomal Department; and more than sixty per cent. of them are represented in the new class. It will also be noticed that more than half of the students in the Normal Department belong to the new class; yet our senior class is likely to outnumber considerably the class of last year: A larger number than is usual from Mchean county succeeded in reaching your special standard for that county at the last examination; yet two-thirds of those admitted from that county are paying tuition because they failed to reach special standard.

It will occur to every one that the pressure upon our seating capacity would be relieved by a considerable elevation of our present standard for admission. It is my opimion that we are gradually elevating our standard from term to term. But, I do not think it would be a wise policy to make any very radical change in this respect, as the inevitable effect would be to exclude many from those parts of the State where the facilities for preparation are the poorest, and where the need is greatest for the influence of the Normal School. Moreorer, those persons thus excluded, in most cases would be sure to teach in the schools, whether they are admitted to our halls or not.

## AVERAGE AGE.

Thave computed the average age of those admitted this term, with the following results: average age of the class, twenty years and three and three-fourths months; average age of the ladies, nineteen years and ten and three-fourths months; average age of the gentlemen, twenty-one years and four and one-half months. These averages indicate a good degree of maturity in our students.

## INTERNAL ATFALRS.

It gives me great pleasure to say that this term has been one of the pleasantest in our whole history. The general health has been good; and nothing has oceurred to disturb the tranquillity of our operations. If flatter myself that I see among our students a growing disposition to devote themselves faithfully to that single purpose for which they are ostensibly present with us.

## THE TEACHERS

I do not feel that there is any call for me to speak of our teachers who have been with us before, except to say that I believe they continue to merit all the good words heretofore spoken of them. In accordance with the vote passed at your last meeting, your committee appointed Mr. R. D. Jones, of Iowa, to occupy the place vacated by Professor Stetson, for the present year, at a salary of fifteen hundred dollars. Mr, Jones has labored with us earnestly this term; but I am not preparod to speak decisively of his work, partly because only a part of it has been in the field of his special department; and partly because the unusual pressure of my own dutios this term has prevented me frora giving that degree of attention to his work which I expect to givo in the remaining terms of the year.

Miss Ida M. Hollis commenced her work here at the beginning of this torm, and has worked persistently and faithtully. For the reason already given, I expect to be better able to speak of the character of her work hereafter.

About the middle of the term Miss Swan found it necessary to leave us for a time on account of ill health. Miss Mary E. Coffey, a graduate of the last class, was appointed temporarily in her place. It was hoped that Miss Swan might be able to resume her duties at the beginning of next term. Her health is improving, but her physicians think it would not be safe for her to take up her work at present. It is their opinion, however, ihat she will be able to return for the spring term. As Miss Coftey's work has met with Professor McCormick's approval, it is our wish, with your approbation, to continue the present arrangement for the next term.

## IMPROVEMENTS.

An inspection of the new steps at the east and west ends of our building will give you pleasure, I am sure. The success of the new well near the north door, it is confidently hoped will prevent the annoyance and expense of hauling water for future use, as we have been obliged to do during the past dry season,

It is our wish to furnish the Normal School room with new seats and desks. Many of those now in use have been used constantly for thirty years; others have been supplied from time to time, and the variety of the present furniture, both in structure and in condition, causes the room to present an appearance that is by no means a model. The need of new furniture was urged upon the mombers of the General Assembly at their last session, and it was one of the reasons for which our appropriation was increased. We have propositions from several firms to furnish the new seats, and it is desirable that the change be made during the coming vacation, if possible. In this connection I take cccasion to say that the societies are proposing to re-seat their halls; and that they offer to sell their present seats to this Board for use in our large hall. I have no recommendation to make as to their purchase, but I will say that the price asked for them is very reascnable.

In accordance with the vote passed at your last meeting, the old grand piano has been exchanged for a new one, by the payment of five hundred dollars.

## EXHIBIT AT CHICAGO.

During the session of the National Teachers Association at Chicago last July, a very creditable exhibition from our Institution received much attention and high commendation. Much of the credit for it is due to Professor Seymour, under whose care it was collected and shown. His report will show in detail the money expended for the same.

## THE FACULTY CLUB.

One year ago last fall the faculty formed a club which holds a meeting once in two weeks. One halt the time is spent in the study of some topic having a bearing on the philosophy of education; and the other half is given to the discussion of matters pertaining to our work here. The members seem to be much interested in the work of the club, and some of the results have had a practical and immediate value in our work. One result has been the establishing of a course of lectures or talks to all the students of the Institution, given once in four weeks by some member of the Faculty. Three have been given this term, with much profit, and the scheme promises well for the future.

The club discussed, for several evenings, certain proposed changes in our course of study; and their conclusions were in harmony with the changes which your committee will report. We are now considering the question of manual training.

REPORTS.
I herewith submit several reports from Professor Seymour, one from Professor Cook and one from Professor MeCormick.

Respeotfully submitted,
EDWIN C. HEWETT.
Normas, December 14, $188 \%$.
The following report of the Committee on Teachers and Salaries was read by Mr. Walker and accepted, and the salary of Miss Cof.fey fixed at $\$ 50$ per month.

## To the Board of Education of the State of Illinois:

Your Committee on Teachers and Salarios have the following report: After much correspondence R. D. Jones, of DesMoines, Iowa, was engaged to fill the vacanoy made by the resignation of Professor Stetson, for the present year, with a salary of $\$ 1,500$.

Your Committee visited the school in October. We found everything in excellent condition, and as far as we could learn, the new teachers were doing well.
P. R. WALKER,
RUFUS COPE,
W.R. SANDHAM.

## ADDITIONAL REPORT.

The Committee on Teachers and Salaries recommend that Miss Mary E. Colfey be retained as a substitute for Miss Swan until the health of the latter will permit her to resume her duties, and that Miss Coffey be paid $\$ 50$ per month during the time she is employed as such substitute.
P. R. WALKER,
R. COPE
W. R. SANDHAM.

Mr. G. B. Harrington was appointed on Committee on Auditing and Finance, pro tem., to fill vacancy made by absence of Judge Knickerbocker.

# The following report of the Committee on Text Books and Course of Instruction was read by R. Edwards. 

## To the Board of Education of the State of Illmois:

The Committee on Text Books and Course of Instruetion in the Normal University, respectfully present the following report:

The members of the committee were requested to meet at the Normal University on Thursday, October 27 for the parpose of considering the course of instruction now followed in the institution. All the members of the committee were present at the meeting. The entire course of instruction was minutely examined, together with all the changes that have been proposed, so far as the committee are informed. Among other propositions the resolutions proposed by Judge Green, at the meeting in June, 1886, and recommitted to the committee at the last meeting, June 22, 1887, were carefully considered. Members of the University Faculty wore also invited to appear before the committee and to present their views upon the changes proposed.

It has been the effort of the committee to crive a fair hearing to all these varying propositions. Indeed, the committee very cheerfully acknowledge that these suggestions from different quarters have been very helpfal to them in their deliberations. In their conclusions they have endeavored to pay due regard to all phases of the questions raised. Of course some of the propositions made have sprung from theoretio considerations. They evince a desire to frame a course of study that shall be theoretically symmetrical. Other suggestions have arisen from what is thought to be practically necessary under the circumstances of the institution and of its papils. We have attempted to give heed to both classes of suggestions, for both are deserving of respectful attention.

## We recommend:

1. That astronomy be made an elective study, and that physics or naturat philosophy shall occupy the first and second terms of the third year.
2. That the work in the training department be emphasized as much as oireumstances will permit. We are not prepared to say that it ought to be exactly doubled, because such a requisition might create so much inconvenience as to do more harm than good. We cordially appove the present arrangement by which two or more members of the Ficulty give one hour each day to the oversight of the training work. This to be in addition to the constant labor of the prinoipal training teacher.
3. That elementary theoretical work in methods of teaching be put into the first term of the first year, to occupy two school hours each week; and that the observation of school work occupy the second term of the first year.
4. We recommend that the subject of English grammar occupy the first and third terms of the first year.
5. That the constitution of the United States and of Illinois take the first term of the second year, ancient history the second term of the second year, and mediaeval history the second term of the third year.
6. That the time given to spelling shall be ten minutes each day, and that this fact be expressed in the catalogue. This is, indeed, the presont arrangement, althomgh an impression seems to prevail that a much longer time is given to this subject. The committee believe that the exercise as conducted in the institution is valuable in many ways.
7. It is ascertained that at present no student ever passes any one of the common school studies, as arithmetic, English grammar, reading, ttc., without a good knowledge of the same; and those who really need to do so, are required to give these studies twice the time announced in the catalogue. We do not, therefore, see any cause for change in respect to these studies.
R. EDWARDS:

HENRY RAAB,
J. D. BENEDICI.

On motion of Mr. Cope the fifth paragraph was amended by substituting "Civil Government" for "Constitution of the United States and Illinois."
Moved again by Mr. Cope that Rosencranz' Pedagogies be dropped from the course.
The latter motion was lost.
The first motion to substitute was carried and report adopted.
A motion by Mr. Raab that the Committee on Teachers and Salaries, in connection with the President of the University, be directed to regulate the hours of teachers in High School, was carried.

The following report of the I'reasurer, Hon. T. F. Mitchell, was read, and on motion of R . Edwards, was referred to Committee on Auditing and Finance.

The following report of the Committee on Auditing and Finance on the President's report, concerning contingent fund, was read and adopted, and the sum of $\$ 400$ was voted to the use of the President of the Institution for that fund.

## To the Board of Education of the State of Illinois:

Your Committee on Auditing and Finance, to whom was referred the aceount of the President with the contingent fund, begs loave to report that it has examined the account and the accompanying 57 vouchers, showing a balance of $\$ 6.08$ on hand, and finds it correct, and recommends that the same be approved, and the sum of four hundred dollars in addition to said balance be placed to the account of said fund for the ensuing six months.

A. L. ATWOOD<br>G. B. HARRINGTON, Committee on Auditing and Finance.

## mLLINOIS STATE NORMAL UNIVERSITY, NORMAL, ILLINOIS.

Financial Statement for six months ending December 10, 1887.
PRESIDENT'S CONTINGENT EUND.

Receipts and Expenditures-Continued.

The report of same committee on M. L. Seymour's report, concerning Chemical Laboratory, was read and adopted.

To the Board of Education of the State of Illinois:
Your Committee on Auditing and Finance, to whom was referred the account of Prol. M. L. Seymour with the Chemical Laboratory, with the vouchers showing receipts, including balance on hand at date of last account, of $\$ 212.01$, disbursements, amounting to $\$ 46.28$. leaving a balance on hand of $\$ 165.73$, which your committee finds correct and recommends it be approved.

> A. L. ATWOOD.
> G. B. HARRINGTON, Commitite on Auditing and Finance.
E. C. Hewert, President Illinois State Normal University:

Dear Sir: I herewith submit a report of the money received and expended for the Chemical Laboratory for the six months en.ding December 14:

M. L. STIYMOUR,

Teacher Natural History, Illinois State Normal University.
The report of same committee on the Treasurer's report was read, recommending its approval. Adopted.

## To the Board of Education of the State of Illinois:

Your Committecon Auditing and Finance, to whom was referrod the Treasurer's report as to moneys received and disbursed from the date of his lastroport, June 20 , 1887, to December 14, 1887, begs leave to report that it has examined said report and the accompanying vouchers, and finds the recejpts from all sources including the balance on hand at last report to be twenty-two thousand four hundred nine dollars and sixty-
five cents ( $\$ 22,409.65$ ), and total disbursements to be pighteon thousand forty-seven dollars and eighty-six cents ( $\$ 18,047.86$ ), leaving a balance on hand of four thousand three hundred sixty-one dollars and seyenty-mine cents $(\$ 4,361.79$; of whioh $\$ 3,527.29$ belongs to the general fund, and $\$ 834.50$ belongs to the land fund.

A. L. ATWOOD,<br>G. B. HARRINGTON,<br>Committee on Anditing and Finance.

## To the Honorable Board of Eduoation of the State of Illinois:

Gentlemen: I herewith most respectifully submit my semi-annual report as Treasurer of your honorable body. The total receints since date of last report, including balance on hand at said date, is twenty-two thousand four hundred nine dollars and sixty-fve gents ( $\$ 22,409.65$ ). The total anount paid out as por vouchers herewith returned, is eighteen thousund and forty-seven dollars and seventy-six cents. leaving balance on hand this date, four thousand three hundred sixty-one dollars and eightynine cents.

For details and specifications of the above amounts you are hereby referred to the sheets and vouchers accompanying this report.

Respectfully submitted,
THOMAS F. MITCHELL, Treasurer.
Bloomington, Ill.. December 13, 1887.

Your attention is called to the scarcity of reference books in my Department. I have a good book-case in my recitation room, but unfortunately most of the shelves are empty. I respectifully ask for an appropriation of $\$ 100$ for the purchase of much needed books.

Respectfully submitted,
HENRY MCCORMICK.
It was moved by Mr. Raab that the President and the Secretary of the Board be, and hereby are, authorized to draw orders on the Auditor of Public Accounts for the third and fourth quarterly installments of the appropriation for the ordinary expenses of the Normal University, at Normal, for the current year, as they become due and payable, and that the Treasurer of the Board is hereby authorized to receive and receipt for the same. The motion prevailed.

The Committee on Auditing and Finance reported on the report of Mr. Seymour on maseam fund, and recommended that $\$ 600$ be appropriated to the museum fund, and if more is needed that it should be drawn from chemical laboratory fund.

## Adopted.

## To the Board of Education of the State of Illinois:

Your Committee An Anditing ands Finance, to whom was referred the account of Prof. Seymour, curator of the museum, begs leave to report that it has examined the accompanying youchers, numbered from one to sixty- hiree, inclusive, showing receipts (including balance on hand at last account) amounting to \$819.37, and disbursements amounting to $\$ 506.70$, leaving a balance of $\$ 312.67$ on hand

Your committee would recommend that the sum of $\$ 600.00$ be appropriated for the use of the museum and natural history department, as recommended by the curator, Prof. Seymour, and should $\$ 600.00$ be insufficient, that he be allowed to draw from the chemical laboratory fund.

A. L. ATWOOD<br>G. B. Marrinǵton.<br>Committee on Auditing and Finance.

E. C. Hewext, President Illinois State Normal University:

DEAR SIR: T here with submit a report, with vouchers, of the money received and expended for the museum of natural history, for the six months ending Dec. 14, 1887:

The large balance is due to the fact that Prof. Worthen is mounting forty-five specimens for the cases and the bill cannot now be presented, as the work is unfinished.

I believe in the next six months we can well fill all the cases, and possibly arrange and label the specimens in the geological cabinet.

For the accomplishment of this work and paying my assistant, I bolieve $\$ 000$ will be needed. Should it prove insufficient, I would like a permit to draw upon the fund of the chemical laboratory.

All of which is respectfully submitted.
M. L. SEYMOUR,

Teacher Nat. Science, Ill. S. N. University.
The same committee reported on Prof. Cook's report of Physical Apparatus Fund, as follows:

## To the Board of Education of the State of Illinois::

Your Committee on Auditing and Finance, to whom was referred the aceount of Prof. Cook with the Physical Apparatus Fund, begs leave to report that it has examined said report together with the accompanying vouchers, showing, a balance of $\$ 13.61$ on hand, and finds the same correct, and recommends that the report be approyed, and the sum of $\$ 75.00$ in addition to said balance be placed to the account of said fund for the ensuing six months.

A. I. ATWOOD,<br>G. B. Harrington,<br>Committee on Auditing and Finance.

## ILLINOIS STATE NORMAL UNIVERSITY.

Financtal Statement for Six Months mnding December 10, 1887.
JOHN W. COOK,
Tr account with Physical Apparatus Fund:

Edwin C. Hewett, Pres. T. S. N. U.:
SIR: The above is a statement of the Physical Apparatus Fund Account to date. I desire a further appropriation of seventy-five dollars for the ensuing year.

> Respectfully submitted,

JOHN W. OOOK.
December 10, 1887.
The report was adopted and the sum of $\$ 75$ appropriated to the said fund.

Moved by Mr. Raab that the reseating of the building be left in the hands of the Committee on Buildings and Grounds.

Carried.
The following propositions of the societies were also left to the same committee:

Normal, Ill., December 14, 1887 .
To the State Board of Education:
Gentlemen-As the Philadelphian Society has decided to reseat the Philadelphian Hall it now offers for sale 118 arm chairs, in good repair, and 53 common chairs. For all of which it asks seventy-five dollars (\$75.00).

Respectfully,

As the Wrightonian Society intend to reseat their hall with opera chairs, they offer for sale the old chairs, consisting of one hundred and twenty arm chairs (five are damaged) and fifty common chairs, which they value at seventy-five dollars.
W. J. MORRISON,

MAÓDE ABBOTT,
Committee.
Mr. Slade moved that certain pieces of apparatus belonging to Mr. Seymour, but used in the University for some years, be bought of him at from $\frac{1}{2}$ to $\frac{2}{3}$ their original cost, and that certain articles of apparatus owned in duplicate by the University be sold him at their full cost. This exchange leaves a balance of $\$ 55.60$ in Mr. Seymour's favor. The motion was carried and amount appropriated.

The following report of the Committee on Buildings and Grounds was read and adopted:

## To the Board of Education of the State of Illinois:

Your Committee on Buildings and Grounds would briefly report as to repairs and improvements made by your Committee since the last meeting of the Board in June last:

## STONE STHPS.

As authorized and directed by the Board, the old steps at the east and west entrances, have been removed and replaced by a new flight at each end. Your Committee found it necessary to put in new steps throughout; that the old ones could not be ufilized to any advantage in repairs on either of the old flightis. They were made of soft Joliet stone, and could not be handled without crumbling. They were replaced by steps made of Indiana lime stone; a stone considered the best for this purpose of any available in this market. The abutments were relaid, and poor stones removed and new put in the place of defective ones. The work has been done in a substantial manner, with a due regard to economy at a cost in round numbers of $\$ 500$. The exact contract price for stone work was $\$ 569.20$, but this included other work about the basement steps and the carriage steps on the south side of the building.

## BLACKBOARDS.

The blackboards in the basement rooms, first and second story rooms, havo all been re-slated, and we think the work well done, at a cost of about 21 cents a yard.

## BASEMENT FLOOR.

The old floor in the basement hallway has been replaced by a new one made of hard pine, which proves a great improvement very much needed.

SEEAM PIPES FOR LARGE HALL.
As authorized by the Board at its last meeting, your committee has removed the steam pipes which have been in use probably for twenty-five years-too small in size, as asystem, superanuated and defective, pipes old and in good part worthless-and replaced them by larger pipes, using the manifold coil, and in general porfecting the system. Your committee believes this change will be in the line of true oconomy and facilitate the rapid heating of the large hall.

## BRICK WALKS.

The brick walks authorized on the north and south side of the building, have been laid. They will speak for themselves.

## THE NEW WELL.

The water question for the past year, has been an important one. The two wells now in the grounds of the University, have proved safficient only in reasonably rainy seasons. During the past three years, and especially the past year, they have proved of yery little account. Your committee were unanimous in the opinion that a tube well if we could get a successful one, would be best for the institution. In such a well all surface water would be excluded and the entire water supply be got from the gravel bed at the bottom of the tube. Your committee made its first effort for such a well, found a fair vein of gravel and sand at a depth of about 50 feet, pumped out the fine sand as far as possible, cased it up and set the pump. On trial the vein of water proved inadequate for hand pump use. We then went one hundred (100) feet deeper- 151 feet, in all-with very little encouragement to go further, and finally as apparently the wisest and best thing to do under the circumstances, abandoned the tube well project, and made an open well to the sand and gravel rein, about 50 feet below the surface, the vein we tried to utilize for the tube well. We think this well, even in the dryest time, will furnish water sufficient for the uses of this University.

The water tanks in the loft of the building, have been cleaned, and the lead linings carefully examined and repaired.
Profew settees have been purchased and put into position in President Hewett's and rofessor Cook's recitation rooms.
The foregoing are the main improvemoins, made since your last meeting. The or dinary repairs are not mentioned.

THOS. SLADE,
G. B. HARRINGTON,
A. L. ATWOOD,

Committee on Buildings and Grounds.
A motion by Mr. Walker, thet J. J. Sheppard and Frank L. Young be appointed to keep $1 \cdot$ :, University store next year, was carried.

On motion, the Board adjourned.
E. A. Gastanan, President.

Richard Edwards, Secretary.
